

## KEY FACTS

### Portfolio Management Team:

Peter Hable, John Goode, supported by a team of portfolio managers and analysts

### Fundamental Research Platform:

- A shared research platform, consisting of experienced analysts who support portfolio management
- Coverage for sector analysts includes the top 300-400 existing holdings and 100-150 opportunistic ideas

**Experience:** Senior portfolio managers of the Small Cap Value team average 34 years of investment industry experience

**Benchmark:** Russell 2000 Value Index

## OBJECTIVE

The Small Cap Value strategy seeks long-term capital appreciation through investment in small-cap stocks representing industries and market sectors which are selling at attractive valuations. The strategy aims to outperform the Russell 2000 Value Index over a full market cycle.<sup>2</sup>

## PHILOSOPHY & STRATEGY

- The portfolio managers believe that a carefully executed portfolio of small companies with attractive valuations, returns on investment exceeding cost of capital and strong free cash flow generation, can potentially deliver strong long-term returns to investors.
- The portfolio managers invest at least 80% of net assets in U.S. companies with relatively small market capitalizations, representing several industries and market sectors.
- The portfolio managers:
  - emphasize individual security selection while spreading the portfolio's investments among industries and sectors
  - look for "value" attributes, such as low stock price relative to earnings, book value and cash flow, and high return on invested capital

## INVESTMENT PROCESS

<b>Initial Universe</b> Russell 2000 Index	2,000 small capitalization companies
<b>Step 1:</b> Quantitative Screening	Narrow the initial universe for screening to 250-300 companies
<b>Step 2:</b> Technical Analysis	A confirmed list of 250-300 securities requiring fundamental research
<b>Step 3:</b> Fundamental Review	Narrow to a list of investable candidates by capitalization and attractiveness
<b>Step 4:</b> Portfolio Construction	Typical portfolio of 100-120 securities*
<b>Step 5:</b> Risk Management & Review/Sell Process	Monitor and manage portfolio risk

For purposes of compliance with GIPS, the "firm" is defined as ClearBridge Advisors, which encompasses all assets managed or advised on a discretionary or non-discretionary basis by ClearBridge Advisors, LLC and ClearBridge Asset Management Inc (collectively, "ClearBridge Advisors"). In June 2008, ClearBridge Advisors combined its separate institutional and retail firms to form a single GIPS firm, CBA. The two predecessor firms were "ClearBridge Advisors Institutional" and "ClearBridge Advisors Retail". ClearBridge Advisors Institutional ("CBA-Inst") encompassed ClearBridge Advisors' mutual fund and other collective investment vehicle businesses and separately managed accounts contracted directly with ClearBridge Advisors. ClearBridge Advisors Retail ("CBA-Retail") was created in 2008 and encompassed separately managed accounts for which ClearBridge Advisors served as sub-advisor under sponsored programs ("retail separately managed accounts"). CBA-Retail's claim of GIPS compliance is effective as of January 2006. In accordance with GIPS, CBA-Retail's historical performance returns prior to January 2006 are presented as non-compliant information. The ClearBridge Advisors entities are wholly-owned subsidiaries of Legg Mason, Inc. ("Legg Mason") and are not affiliated with Citigroup Inc. ("Citigroup").

For the institutional business only, CBA-Inst's predecessor "firm" for GIPS purposes was CAM Institutional ("CAM-NA"). CAM-NA encompassed assets managed by North America-based units of Citigroup Asset Management ("CAM"), the worldwide asset management business of Citigroup that was conducted through various subsidiaries of Citigroup on behalf of certain of its institutional, mutual fund and other collective investment vehicle clients. The CAM-NA "firm" definition was substantially similar to the "firm" definition of CBA-Inst. On December 1, 2005, Citigroup completed the sale of CAM, including CAM-NA, to Legg Mason. In connection with the transaction, ClearBridge Advisors became the manager of a significant portion of the institutional, mutual fund and other collective investment vehicle accounts, including most active equity accounts that were managed by CAM-NA up until the date of the Citigroup-Legg Mason transaction. Assets that were not transitioned to ClearBridge Advisors in connection with the transaction (particularly fixed income and quantitative equity assets) transitioned to other Legg Mason affiliates that were not part of CBA-Inst. Prior to January 2001, CAM maintained three separate AIMR (the predecessor to GIPS) firms. These firms were combined to form CAM-NA effective January 2001.

The linking of the historical track records of CBA, CBA-Inst., CAM-NA and CAM-NA's predecessor firms meets the portability requirements set forth by GIPS®.

The Institutional Small Cap Value Composite consists of fully discretionary accounts with an account minimum of US \$1 million (prior to June 08, the account minimum was \$10 million). All accounts within the composite are primarily invested in common stocks and other equity securities of smaller U.S. companies that the managers believe are undervalued relative to the market. Total assets in the composite at quarter end are \$655.7 million. Results are calculated in U.S. dollars and reflect realized and unrealized gains and losses, including those derived from cash positions.

CBA claims compliance with the Global Investment Performance Standards (GIPS®).

To receive a complete list and description of CBA composites and/or a presentation that adheres to the GIPS standards, please contact ClearBridge Institutional Marketing.
